

# wenlock SPRING

## Wenlock Spring Plastic

Wenlock Spring bottled in plastic gives flexibility in environments where glass is not used or for water being consumed 'on the move'.

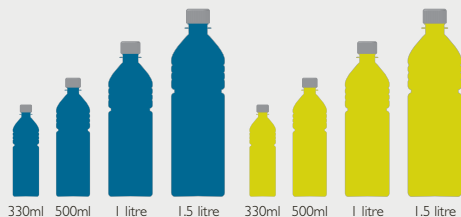

Large 1.5 and 2 litre bottles are suitable for airlines, cruise ships and larger catering establishments. Smaller 500ml bottles are perfect for individual use in gyms or spa's and are also available with a sports cap. The 330ml option is ideal for children. All bottles are 100% recyclable.

The spring water is naturally filtered through the rock strata of the Wenlock Edge creating a unique blend of minerals; including selenium and calcium. Wenlock Spring Still is a unique spring water bottled at source in its purest form, nothing added, nothing taken away; just as nature intended. A light touch of fizz is added to make Wenlock Spring Sparkling.

Clean, refreshing and delicately sweet, Wenlock Spring can refresh you whatever the occasion.

### Available Sizes:

- 500ml: perfect for spas and leisure clubs as a single purchase item
- 1 litre: frequently used by caterers, where there is a no glass policy, or for conferencing
- 1.5 litre: the choice of airlines, cruise ships, conferencing facilities, specialist retailers, restaurant and hotel kitchens
- 2 litre: specialist retailers and professional kitchens
